

## **Integrative structural biology of pathological tau protein, an appealing therapeutic target for Alzheimer's disease modifying drugs**

*H2020-MSCA-RISE-2019-873127*

**D10 Project website**

Work Package:	WP6
Task:	-
Deliverable due date:	31.3.2020
Responsible partner:	MU
Deliverable number:	D6.1
Deliverable type:	Website
Dissemination level:	Public

The publicly available website <http://www.intertau.eu/> includes information on project objectives and activities, profiles of all labs and PIs. The website also includes “Sharepoint” private section shared with project partners. In addition, the website will present all publically open deliverables. Website also aims to promote the project events in section “Events”, and dissemination activities through section “Media”. The website is integrated into the coordinators web environment (CEITEC MU) and will be promoted through relevant social networks and/or collaborating institutions.
